SunMox® S

Solvent Dyes

05 | 2026

SunMox® S

SunMox® S is the trade name for a range of **solvent pigments**. These dyes are soluble in organic solvents but not in water.

They are used to color a wide range of non-polar materials, especially plastics, fuels, waxes, and synthetic fibers.

Product name	Colour index	Applications						
		PS	ABS	PMMA	PC	PET	PA 6	PES fibres
