SunMox® T

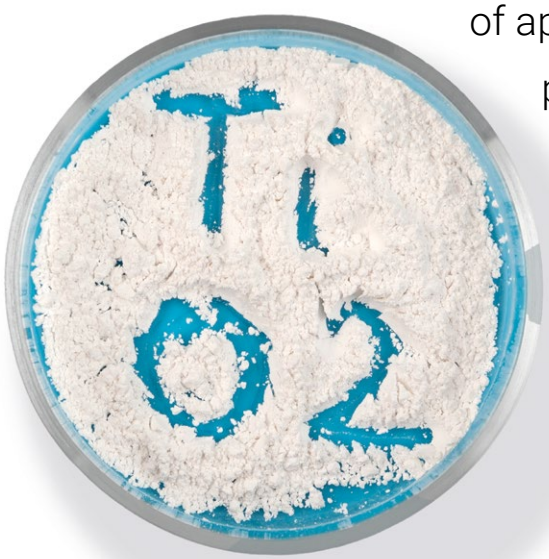

Titanium Dioxides

05 | 2026

SunMox® T

SunMox® T is the trade name for a range of **titanium dioxides** (TiO_2). These products are used in a variety of applications including coatings, plastics and other industrial uses.

These pigments are formulated to disperse easily in a variety of media and provide consistent performance and quality.

SunMox T titanium dioxides offers generally good application properties including good weather resistance, which is important for outdoor applications.
